

QUICK START

NON REVERSIBLE MACON POOL HEATER

STEP 1: Make all plumbing connections;

STEP 2: Make all electrical connections;

STEP 3: Turn-on the pool pump and make sure the water flows through the water heater ;

SETTING-UP TEMPERATURE:

STEP 4: In order to set-up the desired temperature, see control panel; Press the **"ON, OFF"** button. 

A sun will appear in top part of the screen. You are now ready to set-up your temperature by pressing the up and down arrows.  

When you have entered the desired temperature, wait 5 seconds, when it stops flashing, the unit has saved your settings until the next time you change them again.

STEP 5: In order to switch from Celsius to Fahrenheit, Press  and hold for 10 seconds or until you hear a bip sound. Do not use other options that appear.
